Dear World Leader:

Approximately 1 million men, women and children were killed in the horrific Rwandan genocide of 1994.

Sadly, the actions that led to the genocide have never been fully revealed. The conflicts that preceded the genocide continue to this day. This means that justice has not been done for victims or survivors. It also means that related ethnic violence is continuing in nations bordering Rwanda such as the Congo, where 5 million have now died.

That is why I am urging you to support an internationally administered Truth and Reconciliation Commission for the Great Lakes Region of Africa. This is the only way to truly heal the wounds left by the genocide, support true democracy, and bring justice to victims and survivors from all backgrounds.
